

# OUR FLOORS PROTECT DATA CENTERS, ONE SQUARE FOOT AT A TIME

Stonhard's floors protect against  
impact & battery acid spills

**Stonhard manufactures and installs seamless floors that protect data centers.** Our easy to clean floors keep dust at a minimum, stand up to battery acid spills and resist daily impact and abrasion. Seamless, poured floors stay bonded to the substrate eliminating the need for constant repairs. Easy maintenance too; no waxing, no stripping.

**Data Halls • Build Rooms • Mechanical Rooms • Fuel Vaults  
POE Areas • Corridors • Restrooms**

New construction or renovations, we offer a comprehensive range of long term flooring options; from self-leveling to troweled mortars, from static control to conductive. Stonhard has been a single source provider of seamless floor protection for more than 90 years. Ask about our sustainable formulations and custom designs too!
